

# Banner BS16B/VM Vehicle/Bench/Portable

- Assembles from microbore through to -16(DN20)
- Ideal for workshop, maintenance and mobile use.
- Easy to set and use
- 12volt, 1ph and Air/Oil power pack options
- For use on a wide range of hose and fittings
- Autostop direct reading micrometer setting

BS16B AIR/OIL

The annular BS 16B/VM offers a compact, high performance hose assembly press that is suitable for maintenance, workshop, agricultural, mobile or breakdown standby use - built to the usual high standards that you have come to expect from Banner.

The BS 16B/VM is supplied as standard with a basic 5 quick to fit die sets, 16, 20, 23, 29 and 35mm covering spiral hose assembly from -04(DN6)4SP to -16 (DN20)4SP.

Machine setting and adjustment are simplicity itself. Select and fit the appropriate dies, set the micrometer gauge to the required finished diameter and operate the power pack. The machine will autostop at the preset size.

## STANDARD DIE SETS

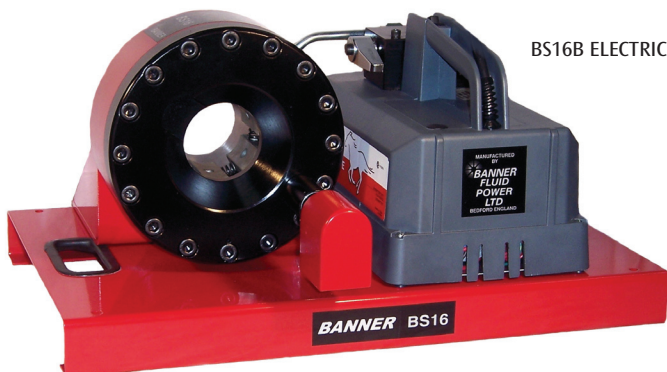

Code	swage range	L(mm)
16 - 16	16 - 20	62
16 - 20	20 - 23	62
